Subject: ScaleOut Software Chosen as Finalist for Best of TechEd Award

Dear Barry,

Are you attending the Microsoft TechEd conference in Boston next week? If so, we invite you to drop by and visit **ScaleOut Software** in **Booth 944**. ScaleOut StateServer has been chosen as a finalist for the **Best of TechEd Award** by the editors of Windows IT Pro, and this is your chance to see it running live.

While you are at our booth you can also enter to win a **free Garmin GPS**. [Click here](#) for details.

If you are not able to visit us in person at the show, please take a minute to learn more about how ScaleOut StateServer's caching and session-state storage can make your .NET server farm applications run faster and more reliably than ever before, by visiting <http://www.scaleoutsoftware.com>.

We also invite you to [download](#) a free evaluation copy of our software and try it out for yourself! Please feel free to contact me to discuss how ScaleOut StateServer can help meet your scalability needs.

Gregory Darmohray
